TRENDS AND FORECASTS

- [The end of martial law in Ukraine](#)
...The martial law showed the country's threatening tendency — the lower the security management level and the closer to the “ground”, the more in the actions of the executors genuine desire to achieve the result by the available forces and means, exaggerations in the assessment of achievements and incompetence. Such a weakness in the security management vertical is a serious threat to the security of the country, especially in the context of the war...
